Forecast For Wales
Issued by Met Office Exeter
at 0400 on Wednesday 19 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunshine and showers, before strong winds and rain arrive Thursday.

Today:
Despite a dry start showers quickly begin to develop in the morning, heavy and possibly thundery at times. Into the afternoon any showers then progress eastwards allowing some dry and sunny spells to develop. Maximum temperature 17 deg C (63 deg F).

Tonight:
The night starts of dry with clear spells. A band of rain then approaches during the early hours, turning western areas wet. A chilly night. Minimum temperature 4 deg C (39 deg F).

Thursday:
Rain continues to progress east, heavy and persistent at times, and continuing through into the night. Winds picking up, with coastal gales developing overnight. Maximum temperature 15 deg C (59 deg F).

Outlook for Friday to Sunday:
Remaining wet Friday with strong winds and coastal gales. Calmer into Saturday, with showers and sunny spells. Unsettled again Sunday, with another band of rain arriving.
